Photo 1: Grab Bars: Factory-installed 1.50-inch diameter, concealed attachment, 18 gauge, #304 brushed stainless steel grab bars. Concealed attachment design provides tamper-resistance and minimizes debris collection areas at contact points, compared to common exposed flange bar designs, without compromising bar attachment integrity. (Reinforced areas include a structural core material encapsulated in FRP composite.)

Photo 2: Shower Bench Seat: Factory-installed shower bench seat with non-porous, high-pressure laminate upper and lower surfaces, fused to high-density phenolic core. The seat area secures to an 18 gauge, #304 stainless steel framework, and easily pivots upward to store along the wall without supplemental fasteners. Heavy-duty wall (hinge) bracket design eliminates supplemental legs and is formed from 10 gauge, #304 brushed stainless steel. (Reinforced area includes a structural core material encapsulated in FRP composite.)

Photo 3: Shower Curtain Rod: Factory-installed 1.00-inch diameter, concealed attachment, 18 gauge, stainless steel shower curtain rod with polished finished.

Photo 4: Shower Curtain: White, 150 denier fabric, bottom weighted shower curtain with integrated rings.

Available Factory Installed Packages (model available without any component or reinforcement packages)
  Component Packages:
  1 ANS17 package code: 2-wall, 3-bar package with phenolic folding RH or LH seat & shower rod, based on ANSI-2017
  2. ADA/TL package code: 2-wall, 2-bar package with phenolic folding RH or LH seat & shower rod, based on ADA-2010
  3. ADA-RI package code: 3-wall, 3-bar package and shower rod, based on ADA-2010 & ANSI-2017
