
CLEAR THREAD CUTTING OIL-How to Use

GENERAL INFORMATION:

Thread Cutting Oil is formulated for use with hand tools or pipe threading machines.

APPLICATION:

Cover the surface with oil before the dies come in contact with the pipe. Oil flow should hit the point of friction to obtain best results.

RESTRICTIONS AND CAUTIONS:

This product can be irritating to skin, eyes, and respiratory system. This product contains a chemical affected by California Proposition #65. Please refer to Material Safety Data Sheet for more details.
