THE ONLY RIP N' STRIP MINI-SPLIT CABLE™

Innovations

- Innovative Rip-N-Strip™ technology
- No blade required
- Safer to use than standard wire
- One wire both covers interior/exterior compliance

Applications

- **Duckt-Strip™** is a Type Universal Hybrid Power and Signal Cable that meets all standards and compliances for a ductless mini-split installation

Standards & References

- Underwriters Laboratories Standards UL 2988
- Federal Specification A-A-59544
- ASTM-B3 and B8
- ARRA 2009; Section 1605 "Buy American" compliant

Construction

- The only cable with complete end-to-end conductor isolation
- UL approved for in-the-wall, through-the-wall
- The jacket is constructed with the patented Rip-N-Strip™ grooves for easier separation of wire(s) and removal of jacket

Jacket

- Conductors are covered with a gray and yellow, sunlight resistant, outdoor rated, direct buried approved, PVC jacket

Patented

**600v
rated**
