## DRAIN PAN

01-8406-1

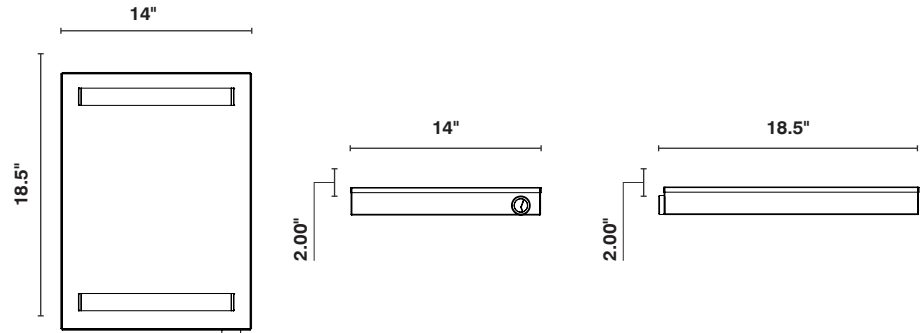

ThermaSol makes installation of our steam generators as convenient and secure as possible in attics, crawl-spaces or any equipment cabinet spaces with the all stainless steel constructed drain pan. The code-approved drain pan (when properly installed) is custom fit to the PRO Series and SSA Series units.

### FEATURES

- All stainless-steel construction
- Custom fit to ThermaSol PRO Series and SSA Series

### SPECIFICATIONS

Drain Connection | 3/4" FNPT

### INSTALLATION NOTES

- Drain Pan must be installed with a ThermaSol PRO or SSA Series Generator
- Must be plumbed to an approved drain
- Must be installed on a level surface
- Pan is required for a proper installation
