T40

POLYCARBONATE
no dents, no corrosion!

Reliable and durable instrument for measuring the smoke number of a flue gas sample. Flue gas is taken from an opening in the flue pipe and drawn through the smoke test paper mounted in the tester. Comparison of the test paper with the smoke scale determines the smoke scale number.

INCLUDES : SMOKE TESTER, SMOKE TEST PAPER, SMOKE SCALE, CARRYING CASE

Westwood *by Beckett* — UNIVERSAL SMOKE TEST PAPER

▶ Precut strips for use in all smoke testers
▶ Includes smoke scale
▶ Sturdy dust & dirt proof plastic package
