

HERCULES®

Technical Specification

SLUDGEHAMMER™

Universal Corrosion Inhibitor

Description

- Sludgehammer™ Universal Corrosion Inhibitor protects against corrosion and lime-scale build-up.
- Helps maintain heating system efficiency.
- Suitable for all metals including aluminum, cast iron and stainless steel.
- For typical 25 gallon system use 1 quart. For larger systems, dose at a rate of 1% of the system volume.
- Use with Sludgehammer™ System Restorer and Noise Reducer as part of an annual heating system maintenance program.

INGREDIENTS

Water, Tolytriazole Sodium Salt, 2-Ethylhexanoic Acid,

MSDS Number: 1616E

Product VOC: 0 g/L
