TANK EQUIPMENT Filler Valves for Dispensers

66.1261
66.0.290.1261

66.1262
66.0.290.1262

Features

- Double back-check filler valve with integral emergency shut-off ball valve: ALL-IN-ONE SOLUTION.
- Both valves are double back check filler valves that have:
- (1) a soft seated upper back check, and (2) a metal-to-metal lower back check seat.
- Eliminates the need for installing expensive and unreliable filler hose adapters as a temporary fix to a failed or leaky filler valve.
- Permits safe filler valve maintenance without tank evacuation.
- These two versions can be used either for underground or above ground.
