

RIELLO PUMP TESTERS

The first tester specifically designed for the Riello pump! Quick-Connect European thread adaptors mount easily on the pump with just finger tightening. The 24" color coded flexible lines allow the tester to be placed in any convenient location for remote reading of the pump pressure and vacuum.

- ▶ Quick-connect European thread fittings require only finger tightening
- ▶ Liquid Filled gauges dampen pulsation - no hydraulic shock
- ▶ "Service Truck Tough" case

*Can also be used on older pumps that have the vacuum port on the side of the pump.
