These water coolers are certified to NSF/ANSI 61.

GENERAL
Self-contained, electric refrigerated, free-standing water cooler designed to be easily accessible to able-bodied individuals. Unit is certified to NSF/ANSI 61 and meets requirements of the Safe Drinking Water Act. Unit provides $50^{\circ} \mathrm{F}$ water at $80^{\circ} \mathrm{F}$ inlet water and $90^{\circ} \mathrm{F}$ ambient.

## CABINET

Heavy-gauge vinyl clad steel. Resistant to wear, moisture, perspiration, heat, and sunlight. Unit mounts flush against wall for a cleaner, more attractive appearance. Optional Stainless Steel is available.

## COOLER TOP

Non-corrosive stainless steel cooler top, number 300 series with satin finish resists stains and corrosion and is easy to maintain. Anti-splash ridge reduces splatter. Contoured to insure proper drainage.

## BUBBLER

Exclusive one-piece, chrome-plated two-stream mound-building bubbler with non-removable anti-squirt feature and integral hood insures a satisfying drink of water.

## AUTOMATIC STREAM HEIGHT REGULATOR

Self-closing assembly is located inside unit to prevent tampering. Unit resists corrosion and liming. A constant stream height is automatically maintained under line pressures that vary from 20 to 105 psi.

## PLUMBING CONNECTIONS

Waste and supply lines secured to back of cabinet. Waste $1^{1 / 1 / 4}$ " Supply ${ }^{3 / 8 "}$ tubing

## INLET STRAINER

Easily cleaned in-line strainer screen traps particles of 140 microns or larger before they enter the waterway.

## TEMPERATURE CONTROL

Positive sensing thermostat for controlling temperature of storage tank water. Factory set at $50^{\circ} \mathrm{F}$ Adjustable $\pm 5^{\circ} \mathrm{F}$.

## STORAGE TANK

Non-pressurized stainless steel evaporator/storage tank for long life Waterways are certified to NSF/ANSI 61, far exceeding the requirements of the Safe Drinking Water Act.

## REFRIGERATION SYSTEM

Hermetically sealed, positive start compressor with lifetime lubrication and built-in overload protection, efficient capillary sizing, large capacity dryer-strainer, and self-lubricated fan cools copper/aluminum condenser. System uses R134A refrigerant. Protected by Halsey Taylor's Limited 5 Year Warranty.

## VENTILATION

Insure proper ventilation by maintaining 6" (152mm) minimum clearance from cabinet louvers to wall.

## SUGGESTED SPECIFICATIONS

Shall deliver ( ) GPH of $50^{\circ} \mathrm{F}$ water at $90^{\circ} \mathrm{F}$ ambient and $80^{\circ} \mathrm{F}$ inlet water. Shall have stainless steel basin with fixed drain strainer. Bubbler shall be two stream, mound-building type. Separate valve and automatic stream regulator shall be mounted within cabinet. Refrigeration system shall employ high efficiency, positive start compressor using R134A, non-pressurized tank with totally encapsulated insulation and be controlled by positive sensing thermostat. The manufacturer shall certify the unit to meet the requirements of NSF/ANSI 61, and the Safe Drinking Water Act. Unit complies with ARI Standard 1010.

NOTE: Continued product improvement makes specifications subject to change without notice. See Halsey Taylor website for most current spec sheet.

## Free-Standing Cooler

Standard Finish is Platinum Vinyl
Optional Finishes (extra cost)
$\square$ All Stainless Steel
Optional Accessories (extra cost)Glass Filler KitSump Pump Kit
$\square$ Vandal-Resistant Kit
$\square$ Water Filter
$\square$ Easy-Flex ${ }^{\text {TM }}$ Bubbler
Trap and service stop not included.

## Economy Free-Standing Cooler

(CONTINUED)

## PLUMBING CONNECTIONS

Enter directly into cabinet. Waste $1 \frac{1}{1 / 4}$ ". Supply ${ }^{3} / 8^{11}$ tubing.

Trap and service stop not included.
OPERATING PRESSURES
Supply water-105 psi maximum

## ELECTRICAL

Furnished with plug-in, 3 -wire grounding type service cord. Standard 120 volt, 60 Hz , single phase. Transformers available for other power supplies. (See capacity chart for amp rating.)

Install 120-volt receptacle, rated at $15-\mathrm{amp}$ minimum to receive 3 -wire parallel blade grounding type male plug.

Note: Installation outdoors in an unprotected environment is not recommended.

FRONT VIEW

NOTE: A service supply stop must be installed at the cooler inlet line.
