

TECHNICAL DATA SHEET

MILLED BRASS SAE 45° FLARE NUTS

Applications:

Refrigeration, Power Steering, Gasoline. Used with Copper, aluminum, and Welded Steel Hydraulic Tube that can be flared. Not suitable for gas applications. Use long nut for vibration, forged for extreme cold and gas applications.

Working Pressure:

Dash Size	Tube O.D.	PSI	Copper Tube Wall
-2	1/8	2800	.030
-3	3/16	1900	.030
-4	1/4	1400	.030
-5	5/16	1200	.032
-6	3/8	1000	.032
-8	1/2	750	.032
-10	5/8	650	.035
-12	3/4	550	.035

Working Temperature:

-65°F (-54°C) to 250°F (120°C)
