

PET Pleated Filter Cartridge

PRODUCTS FEATURES

- Low pressure drop, high flow rates
- Greater surface area, longer life
- Increased particle removal efficiency
- Reduces sand, silt, scale and rust particles

SPECIFICATION

- Temperature : up to 140°F (60°C)
- Flow rate : Up to 15 GPM (56 LPM)
- Approx 6 ft² (0.56 m²) of media per 9-3/4" length

ITEM#	MICRON	CASE QTY
Standard		
4PROSPF5M	5	12
4PROSPF20M	20	12
Big Blue		
4PROBPF5M	5	6
4PROBPF25M	25	6

Note:
Filter housing selection should also be considered when flow rate per cartridge is determined.
Do not use where the water is microbiologically unsafe or quality without adequate disinfection before or after the unit.
To keep your filter system operating efficiency, replace per 3 months or by the recommendation of your experienced water conditioning dealer.
