

PAC-SPRFCS-118/138/158RCW

REFRIGERANT FILTER / CLEANING SYSTEM

TO BE USED WITH CITY MULTI® R2- AND Y-SERIES OUTDOOR UNITS

Job Name:

System Reference:

Date:

GENERAL FEATURES

- Provides a replaceable RCW-48 high water capacity filter core in a bypass arrangement from main suction flow
- Check valves provided to prevent reverse flow and back flushing of contaminants in the event ball valves are not positioned correctly
- Integral pressure relief device is also included to prevent over pressurization failure of assembly components and filter housing
- Will enhance quality assurance on VRF project installations, minimizing potential migration of contaminants

SPECIFICATIONS

System Model Number	Valve Assembly / Outdoor Unit Suction Pipe Size
PAC-SPRFCS-118RCW	1-1/8" *
PAC-SPRFCS-138RCW	1-3/8"
PAC-SPRFCS-158RCW	1-5/8"

*1-1/8" System also includes 3/4" and 7/8" reducers with a qty of (2) for each size for use with outdoor units with 3/4" and 7/8" suction lines.
