preventive  
alerts to avoid  
catastrophic  
damage**

### What is Flo by Moen?

Flo by Moen is a main line water monitoring device for your home. With built in pressure, flow and temperature sensors in the device and using advanced analytics in the cloud, Flo by Moen learns a consumers home, monitors water usage on a daily, weekly and monthly basis, identifies leaks or excess water usage and alerts the home owner of these issues to prevent damage and protect their home.

### How does the home owner know there is a leak?

Through the connected smart phone app the consumer is able to see their water usage, get real time alerts (or via text message, email or automated phone call) to remotely turn their water on or off.

## WHY WATER MONITORING & LEAK DETECTION?

**5x**  
more likely than theft

**6x**  
more likely than fire

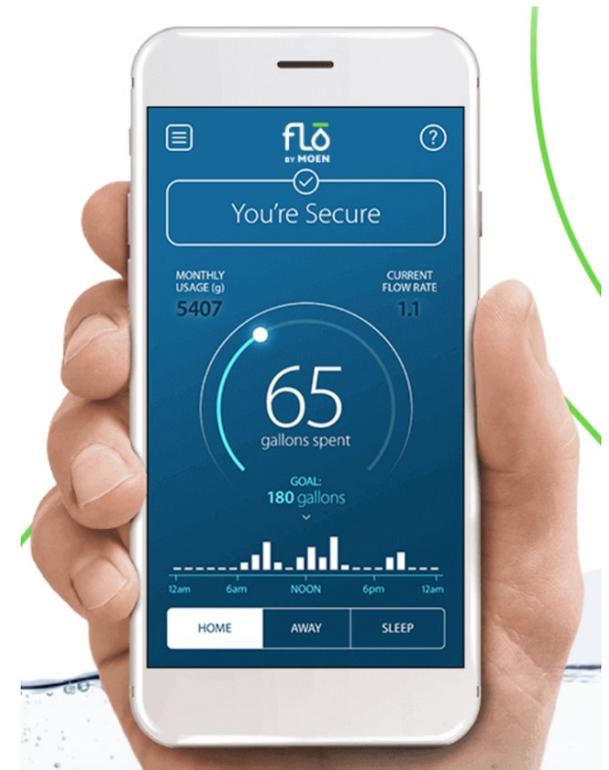

**40%**  
of homeowners will suffer from water damage.

**17**  
gallons are lost due to leaks everyday in a typical home

\*Based on well-documented insurance statistics referenced by many in the industry.

## Microleak™ Technology

**Flo by Moen proactively monitors the integrity of the entire water system to identify even the smallest vulnerabilities otherwise undetectable by traditional sensors.**

### Where is Flo by Moen installed?

### Installation Requirements

- Above ground and accessible main water supply line
- Main water supply line must be 1/4 inch or smaller
- Standard power outlet
- Smartphone (iPhone or Android)
- Home Wi-Fi
