

HOT WORK THERMAL BARRIER GEL

Protection For All Hot Work

Firelce Shield® provides a lasting, heat-resistant protective layer, effective up to several thousand degrees Fahrenheit

Prevent Damage

Block heat transfer and reduce the risk of accidental charring, burning, or igniting flammable materials

Protect surrounding surfaces from sparks, flame, and heat transfer while using torch or welding equipment

Easy to Clean

Our eco-friendly, non-toxic, non-corrosive, and odorless formula easily rinses off with water

Directions for Use:

- **Apply** a thick coating of Firelce Shield® on any surface areas that may require protection from heat or flame.
- **To clean**, simply wipe Firelce Shield® off the protected surface.

32 or 16 oz. Spray Bottles
24 oz. Paste Jars

Protection For All Work:

- Brazing
- Cutting
- Grinding
- Soldering
- Sweating Pipes
- Welding
