Required Electrical Service

One dedicated circuit required, protected with Class A Ground-Fault Circuit-Interrupter (GFCI) or Residual Current Device (RCD).

120 V, 15 A, 60 Hz

Technical Information

All product dimensions are nominal.

Power source: Plug - AC, included

Notes

Install this product according to the installation guide.

CAUTION: Risk of product damage. The controller is rated to operate in temperatures up to 104°F (40°C). Do not install where the temperature may exceed 104°F (40°C).

CAUTION: Risk of product damage. Mount controller higher than the digital valve to prevent water damage.

The controller comes equipped with rubber feet for placement on a shelf or countertop.

Install the electrical outlet prior to installing the controller and within 6' (1.8 m) of the controller.

Can be mounted within a standard 2x4 stud wall.

Provide an access panel for servicing if mounted within a 2x4 stud wall. The stud cavity must be free of insulation.
